

# BE A HERO. SAVE OUR SCHOOLS.

## THE PROBLEM

---

Washoe County is facing a crisis. Our schools are severely overcrowded and in critical need of repair.

Children are packed into buildings that have asbestos, leaking roofs, and failing ventilation. A third of our schools have not been renovated in over a generation.

One in five schools have more students than they can handle, forcing classes into hallways. **The time to act is now — and the solution is half a cent away.**

“ One in five schools have more students than they can handle, forcing classes into hallways. ”

## THE SOLUTION

---

With a half-cent increase in the county sales tax, we will build fifteen new schools, and raise the revenue needed to fix our aging schools and bring them up to standard.

All of the money will be dedicated only to school repair and construction — and will not and cannot be spent on anything else. A new volunteer committee will oversee each and every cent to ensure our money is spent properly and transparently.

Along with the funding we need to save our schools, we will be electing a new majority on the school board this election, which means out with the old and in with the new.

This November, let's elect a new board, build new schools, and renew accountability to our school system to usher in a better future for our children and community.

## THE COALITION TO SAVE OUR SCHOOLS

---

We are a grassroots coalition of parents, teachers, business owners, and community leaders working to save our schools by advocating for passage of WC-1.

We invite any Washoe County citizen passionate about this issue to join the coalition by visiting us at [SOSWashoe.com](http://SOSWashoe.com), following us on Twitter, and liking us on Facebook.
