

— The Path To —

Saving Our Schools

Washoe County schools are facing a crisis. The solution is half a cent away.

220+

temporary classrooms
are currently in use.

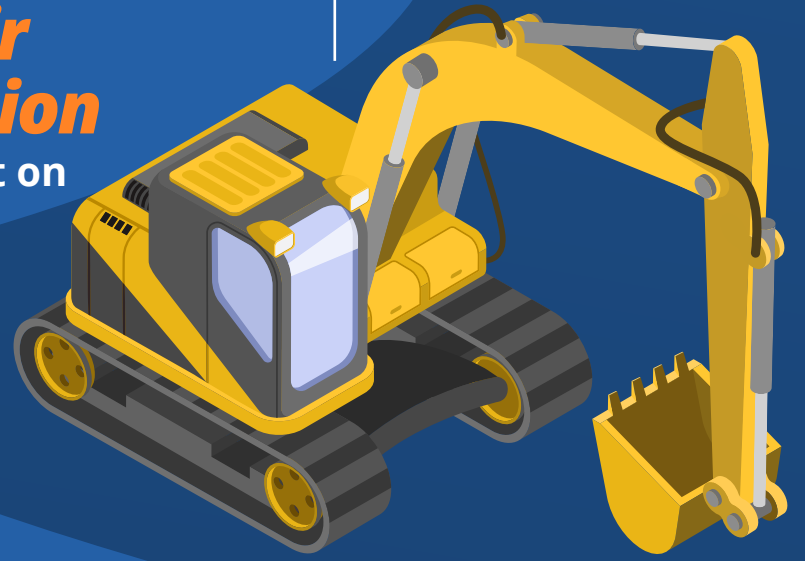

1 in 5

Washoe schools are
operating significantly
over capacity.

If we increase the county
sales tax by
half a cent,
we will raise the
revenue we need to
fix our aging schools.

All of the money will be
dedicated only to
**school repair
& construction**
and cannot be spent on
anything else.

A new volunteer capital protection committee

will oversee each and every cent to
ensure our money is spent properly
and transparently.

Out of a 7-member school board,
4 new trustees
will be elected. We'll have
a fresh start to put our
schools back on track.

We can build

**15 New
Schools**
and repair existing
classrooms to

- Remove asbestos
- Fix leaking roofs
- Repair failing ventilation
- Avoid makeshift classrooms

With New Schools

- Property values rise
- Families avoid double sessions
- Children move out of hallways and into classrooms

Vote YES on WC-1
